

# Kankei

## Unlock your relationship's potential

Baudet Quentin, Bézot Maxime, Hatoum Jade, Ngassa Yoke, Renno Joseph, Efrei Paris

☐

Your +1 is special to your heart, and having a **stable relationship** can be difficult from time to time.

That's why **Kankei** is meant for couples to discover new things and always try to give a new burst to relationships.

That's how our app can help people.

☐

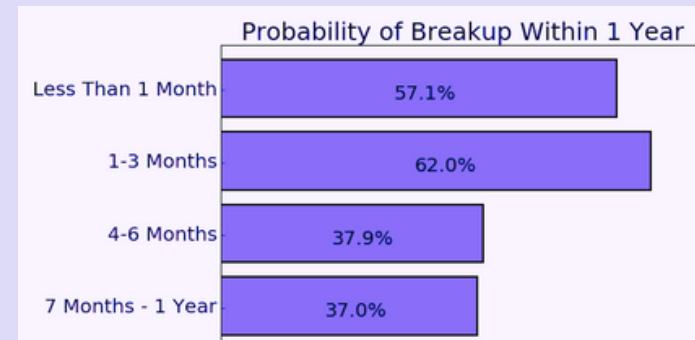

- ♥ The development of our project is divided in **small steps** and **objectives** to make sure we cover everything.
- ♥ It's only by working **together** that we can make an app that brings people together.
- ♥ We asked many **people in relationships** for their thoughts on our features.
- ♥ With **Notion** allowing us to stay organized, **Figma** to visualize, we are ready to code on **Flutter**.

☐

Any relationship in life is at risk of ending. Nobody wants that. By installing **Kankei**, one can make the right choice and ensure that their relationship **lasts long**.

With its numerous functionalities available to the user, like the ability to create **quizzes**, find topics to **talk** about with your partner, or **be reminded** of important dates you share with one another, you can each develop a **profound relation** that resists even the most problematic conflicts.

**Bring back the spark with new ideas**

☐

**Kankei's** ultimate goal is to make your most precious relationships **deeper** and more **stable**.

A great learning axis we exploited was how to fully **manage a concrete project**, as well as **software development**.

The app has **great potential** for the future, with a feature list that can only get bigger with time.
